Mr. Giffen,

This email is in response to your email to Attorney General Rosenblum, dated August 8, 2013 regarding the Oregon State Hospital.

Unfortunately, Attorney General Rosenblum does not have authority over the Oregon State Hospital. That is under the authority of the Oregon Department of Human Services. I would suggest directing your concerns to them.

However, I have forwarded your email on to our Criminal Justice Division and they will be in contact with you if they feel there is something they can do.

At the current time, these issues are occurring outside of the state hospital. In fact, the issues were never directly attributable to the state hospital. Although the issue first arose there, this happened outside, by outside agencies. The Justice Department, State Police, and Governors Office, and many other agencies are involved. Outside of the hospital, I was assaulted by several police, and was set up by them and the CIA. This has very little to do with the hospital if you actually read over and try to understand my complaint. This complaint at this point, is mostly about the state of Oregon, the Justice Department, and CIA illegal use of this energy weapon technology around Oregon. That is the issue that is being investigated here. And in my complaint, there is video and audio evidence being kept at the state hospital, that ties all this together, as evidence towards the states illegal use of this technology. The most complete description of this technology, is that it was originally designed by the DoD/NSA, and it now is use nationally, including by the state of Oregon, to illegally spy on people. It allows them to see and hear through walls, read brain waves, government agents can illegally communicate over the system, and it allows mind to mind messages transmission. It is also a weapon, that allows the government to remotely sabotage, and injure a person. It allows them to beam messages, audio, video, dreams, and other sensations directly into a persons mind and body. It also allows their body to be microwaved, heated, chilled, tissue manipulated, and moved through the walls. It is a weapon that was only designed to conduct and hide secret torture and abuse. This again, is what is being investigated here.

Also, I attached a picture of my face, after two cops, who were working with the CIA, beat my face in. They were involved in using this technology, to secretly hurt and injure me. And they used this weapon to hide their crime. My grandfather also witnessed the entire assault. The police and District Attorney in the case helped frame me, by using this weapon on me, keeping me sick, simulating psychosis, pretending they weren't doing this, and they refused to investigate the polices behavior. They ignored complaints from my family, and I was severely injured in jail where this weapon was used on me for over two years. This is obstruction of justice, and official misconduct. You can pretend you don't have authority over this, but you do. You have the authority to investigate any criminal activity, violating of the law or constitution in Oregon. The only reason you wouldn't is if you were trying to cover this up, and didn't intend for anything to happen to expose yourselves. This very technology is in use by the Oregon Department of Justice, and it's police force. You provide it in secret to the entire Oregon legal system, and you lie and obfuscate the truth to protect it.

Once again, I am not at the state hospital, and this is occurring right now down in Springfield Oregon. I am being irradiated and abused in my home, kept sick, while they rape and injure me with this weapon. Got something you're trying to hide or are you going to do something about this?

Forgot to attach the photographs. Here is the photographs of after the CIA/the Springfield Police came into my home, after having spent the last 3 years using this weapon on me. They beat me up in front of my grandfather, and then framed me. Completely falsifying the police report. I also have video tapped testimonies from my family on what happened on the front page of my website.

The three videos from my family are listed here: <http://www.obamasweapon.com/> - look for the news update dated 8/2/2013.

I do request that you make sure something is done. You could end up in prison eventually if you don't. At this point, any refusal to investigate is going to be treated as government corruption. Individuals protecting each other, making sure nothing is done, while I am abused and secretly injured. I have provided so much direct evidence, multiple times. Each time you find a way to delay and stall, while you write an incompetent false report designed to cover your ass. The state police have done this, denying me assistance, while they protect their CIA buddies from prosecution. They come into my space, and they sit there using this technology, right in the room, they know it exists, and they lie. They even threaten me, they tell me it's ok if I die, and that they don't care. They're gunna keep using this weapon on me, until someone stops them. But the corruption, it just goes to the top.

Also, how do you think the state gets away with using energy weapon technology, if everyone in government isn't in the know, approved it, and protecting it? This is the only way to prevent prosecutions of government agents, if they are being protecting from the very top - the Attorney General, Justice Department, and Governors Office/President himself.

why wouldn't I make a complaint right straight to the Attorney General, and expect a response? I will make sure you get fired for not protecting the American people. this is headed right straight for a lawsuit, and you're dead. I like how you try to dismiss it as something you don't take care of, like you just don't care about the public getting hurt and slaughtered. like you're above the law or something, and energy weapons are something you're allowed to use on the public or something. and, you say, to contact other departments when yours is in charge of investigating serious matters like this? ha.
