Dear xxx,

Name is Todd Giffen. Sent many emails, and left details of my abuse by the CIA and FBI here in Oregon on the attorney generals voice mail, OIG office, OIG email and also forwarded emails to several FBI offices over the last year, no response and dealing with system wide abuse; along with the state of Oregon, and local police. They have some top secret technology, which was used on me to spy on me, simulate psychosis, and injure me. Sure you have heard of psychotronic weapons, synthetic telepathy, remote neural monitoring, and electronic brain link? These are computer systems which use remote imaging techniques to read neuron activity from afar; a computer decodes brain signals, tracks many thousands of people at once, and it can be used to peer into peoples minds. see what they see, hear, think, feel, remember, dream, monitor all neuron activity from afar. it is a machine which does remote monitoring of radiowave energy, and it can also do whole building and structural fMRI. they have a light gun array which allows them to image whole objects, humans, buildings, and more; and it also does remote nerve and brain stimulation. it can use microwaves to manipulate individual neurons to stimulate brain function, it can be used to send signals into peoples brains and bodies, computerized images, sound, dreams, etc - full remote control is possible. officers and government officers can use it for covert communication, spying and torture. the US DOJ and state of Oregon was using this to spy on me in 2008 at the Oregon State Hospital, during the US DOJ investigation of whether the state hospital violated

patient rights. I was caught up in a scandal which the state was covering up, because of the states lack of liability insurance. It included the illegal use of this weapon to access my mind and track me around the hospital, which staff used to abuse and harass me over; they knew everything I was doing, thinking, and making fun of it all; the scandal I got caught up in was the Bonita Tucker staff member situation; she was a staff, she sexually abused me, lied about it, and the hospital covered it up, literally refused to protect me, and let the union members do what they wanted to abuse me. my release was sabotaged, and the doctors framed me to look psychotic, abused me with drugs, and mutilated me. a year after I told the truth about this woman, she was caught smuggling in large amounts of marijuana, had another romantic relationship with a patient, helped him and another patient escape, and caused a big scene there at the hospital. the two patients were David Anderson and Gino Puglisi. The state didn't arrest this staff member, and many staff members were involved and implicated; however, the staff let her resign, protected her along with all the other staff. I became a target of deliberate abuse, and this meant the spying and other abuse; they had recordings of me masturbating through the walls, for example. They were linked up in secret, receiving communications with their minds, it allows coordinated state abuse, and cover up to occur. The staff discussed this technology once on a unit with camera and microphones, they had "something outside of the building that was able to focus on just him" - I was assaulted by staff on camera, and other serious abuses occurred. They referred to this surveillance as a "live wire" - possibly court authorized. Was it really authorized, or was it some unapproved form of surveillance? Because they seemed to know that it was illegal; they were freaking out that I was going to hire a lawyer. But they sabotaged it. They were not allowed to medicate me, they abused me with medication on purpose. My outside doctor, Dr. Suckow was protecting me from OSH; he said I had only ADHD and depression, and no history of psychosis or other disorder. OSH was trying to frame me to look paranoid over the situation, and they got away with it. I heard many conversations on 48B, staff saying to "get him into restraints at all cost" and after ramsacking and stealing some legal paperwork, "why did they hide his case? they think the state lacks liability insurance, and the judge already made his decision, and the notes are too incriminating" - they stole the notes and refused to give them back. Everyone at OSH knew this was going on; the state police were involved, Office of Investigation and Training, the Governors Office, US DOJ David Deutch and Robert Koch, who were leading the OSH investigation, and Disability Rights Oregon, the supposed adult abuse and protection agency; everyone knew this was happening, didn't want to incriminate themselves, and covered this up. DeAnn Major of Disability Rights Oregon told me before I even knew they had technology outside of the building; I didn't believe it, I thought it was camera and microphones on the unit doing it, that "the technology exists" when I told her she could have come out and busted the staff doing all this weeks before if she would have read and responded to my email. I sent the email about all these abuses to the FBI, governors office, OIT, hospital administration, DRO, and state police - I received no response, and this is because I had no idea they were all involved in doing this. I had no idea that "technology" was responsible for the abuses that occurred, but after time I realized what was happening.

In August 2008 I tried to contact the newspaper the Statesman Journal about these abuses, the Bonita Tucker situation (she had after a year finally been given charges for smuggling in morphine, amphetamine, but the state still protected her and allowed her to lie to get out of trouble), and the spying; I was in my cell, all sorts of dates and times on the security footage saved, and this is what happens: they used this weapon to try to kill me. Photons flood my body, and I hear them say "no one has ever made it this far.... like you spy for the Statesman Journal, DeAnn Major spys for the CIA" "you're being set up to look psychotic" - etc. Computerized sound engulfed my body, I swoll up, nearly died as photons flooded my body, I had a 170 pulse, started to convulse, and went into shock. They started to do things to me, controlling and simulating my dreams, abusing me "no body cares" "die" these were all messages that I only heard, they were being beamed directly into my mind. They called it "abusive rhetoric" and I received many messages, like when I got around females, it would tingle my balls with microwaves, and say "why do your balls swell Todd"? I was in disbelief; I knew about how brain waves traveled very far, and could be read from a distance. I figured the hospital staff, union was doing this to me, maybe had some type of rigged ultrasound machine down stairs, since it would be based on technology consistent with what they had at the hospital. well, it was something completely different, and the remote control would never stop. They can do many things with these microwaves, heat, chill, move tissue around, expand, push, pull, tickle, itch, and do other things to your body. It is no simple machine, a light gun array can paint and aim photons to wide open areas and many parts of your body or environment at once; they can image and manipulate matter, air molecules, walls, or your body and nerves. It allows many agents or staff to be linked together at once, it tracks and sees people and their energy through the walls - it is similar to EEG. It can do a lot; so, they started to experiment on me, simulating massage, trying to slow the convulsing and pulsating of my muscles. they did this for nearly 6 months, and my body was very badly mutilated afterward. swollen, rigid, stiff, I was denied medical care I needed to function or repair myself. I had to pretend it wasn't going on, staff made comments about how I was in a coma and would never come out of it, but no one could admit to what they did because they would surely end up having to close the hospital, and face criminal liability for what happened. It was going to be the biggest blemish on the face of the Bush administration, the US DOJ, CIA, and state ever - and expose serious non-stop abuse. I got out of OSH in 2010, no they never stopped doing this to my body; it was called an "unstructured settlement" but I never got the \$16.4 million they promised. In the community, I was in control of the CIA; undercover agents followed me everywhere, kept using this on me, and sabotaged and controlled my life. This is called gang stalking when agents follow a person around and target them; but in reality, I was in their pseudo prison, and these were agents and guards keeping me in control. All local infrastructure was involved; local Springfield Police, the hospitals, and my doctors; they worked with the CIA behind my back to hide my medical condition. I was given dreams by Obama, I was the boy in the whitehouse with muscle problems, that no one wanted there; everyone hated me. there was talk about me getting a medal, I think I have no idea, the medal of freedom. they showed it to me, the dreams were designed to stimulate and repair my brain, because I had lost the ability to dream naturally. I was being experimented on and tortured at the same time. I was eventually set up and beat up by local police, they had been harassing me over this. An FBI Agent Roberts was in charge; the local police knew the term "psychotronics" and quotes from my friends on Facebook; they knew everything that was going on in my house, everywhere, everything that was happening with the technology. The sexual

abuse, etc. I would be in my apartment yelling at them "it was your responsibility to get my medical care" "you did this, you should have taken me to a doctor" - they responded "if you don't remember, it didn't happen!" - on the streets, I saw anger affect on the people following me. A man agent follows me to the bus station, is there after I get back from a trip; he walks by anger aggressive face, and zips his lips closed; no one was going to talk or help.

I was eventually brutally beat by two involved cops, in front of my own family; my family was also involved, the CIA went to them to find out more, the CIA would use my family to pass messages, and everyone was controlling me; this place called Laurel Hill Center, the city, local hospital; everyone was participating, having secret meetings and communication about this. The two cops lied about the incident, my grandpa witnessed it and stuck by me, they beat me up and said I did it; I was sent a message months before, these people hated me, were ticked "you lied, so you're going to prison" - they were harassing, abusing, and assaulting me, and I couldn't stop it. they hoped I would get caught in a situation and get sent to prison, where no one would help me. I fought the case for two years, till it finally ended. In jail, they raped and hurt me over 300 times, sexually abusing me with microwaves, forcing ejaculation, over and over; the deputies were linked up at Lane County Jail, aiding in my abuse, and the cover up. Lane County Sheriff Thomas Turner; I was being slaughtered in my cell with microwaves. Sound and other abuse, 24/7 "eat each assault" they'd say "you won't be safe anywhere, the sheriff association and police union will get you" - with microwaves, they can simulate your genitals, put female images and 2D screens in your mind, and make it feel like female energy in your body. You can get up but the energy tracks you and they can tickle and do other stuff to your body; they had the goal to incapacitate me and prevent me from talking. The orgasms were designed to hurt me; each time my muscles jammed up, caused brain and bodily injury; they knew that orgasms had gotten screwed up from antidepressant abuse after they started this; they prescribed improper amounts of antidepressants to hurt me, knowing I wasn't mentally ill, and that this was real. now each orgasm causes a severe dopamine response, similar to dystonia - muscles jam, body dries out, pain and swelling all over, burning and stinging, numbness, damage to organs, eyes, ears, and more. They then use this microwave machine to try to dry my body out and hurt me, simulate massage and other simulate that hurts me even worse. and they won't stop, every few days they do it again. I had high CK in my blood, over 700 that can only be severe muscle or brain injury; the jail and OSH was refusing medical care, pretending I was psychotic to hide it; I tried to get an MRI which would have proven injury inconsistent with microwave exposure, but they were all working together, hiding it, the jail wouldn't do any kind of medical tests to prove or disprove injury, and they were protecting the CIA and deputies the whole time. I finally saw my own MD in April, Dr. Hardt, who diagnosed me with obvious post concussion syndrome, brain stem damage, and messed up muscles. Each orgasm causes concussion like damage, squeezing of my brain, blood flow and blood pressure gets really high - I was being tortured badly. I took a false plea deal to get out of jail, now I am trying to get medical tests to back it up. I am living in an electromagnetic field, they are still abusing me and my body, and won't stop. I need you help, this has all been done before. The NSA has been sued for using electromagnetic fields on people before..

Please, I need your help ; there is no protection in America from this - NSA Whistleblower Russell Tice has exposed from of the system. He specializes in satellite and other spy systems and he was I believe responsible for some of the leaks on Remote Neural Monitoring, Electronic Brain Link, and Remote Brain/Nerve Stimulation. I believe that PRISM and these other spy programs are a joke; that the US Government is monitoring every square inch of US soil, every person, watching and spying on what they're doing in their homes, and is able to monitor all their thoughts and brainwaves from afar. Everyone is being monitored, and no one wants to expose what's happening - police have this technology everywhere, and it's wide spread; the abuses are wide spread. We need someone to investigate this, and pass a law to ban it; the Space Preservation Act by Dennis Kucinich would have banned it in 2001 - from Space, Land, and Sea use, information weapons, psychotronic weapons, energy weapons which injure or effect a persons mental health from afar, or weapons which allow remote brain invasion or spying to occur. These are "information weapons" - Russia has a ban, the US refuses to do it. And because these devices are so clearly illegal; they get used in secrecy only, because no one can know about their use - otherwise the public might stand a chance to sue or shut these systems down. There is an article on the Washington Post, called Mind Games, and I think this system is behind the torture and invasion of many thousands to millions of American citizens; it's very similar to the old MKULTRA program.

please take a look at my site and respond, I need help before I die.. I have evidence, video and audio from OSH in 2008, police and government agents can be polygraphed, and there are many people in town who if they were talked to they might be forced to disclose what has been doing on. they all worked with the CIA to do this, hide it. my injury is also consistent with microwave exposure, and no other explanation exists. please.... help. Massive Senate Investigation, lets make America better for everyone, and restore power to the constitution. Government agents only get power because the constitution grants them power, and if they ignore the constitution for everyone else; then they don't deserve the power they have, and we didn't authorize anything they did. It's like they're operating in a whole other world like only the government matters, and government crime doesn't matter. Government crime is the worst, because it's more serious then any other - it hurts people, people get assaulted and set up, and they have no protections.

my website is <http://www.oregonstatehospital.net/>

More links about these abuses at <http://www.oregonstatehospital.net/d/story.html#links> - Look up MindJustice.org, the Space Preservation Act, Research into Mind Control by Dr. Carole Smith, Citizens Against Covert Surveillance and Abuse, and the many other links about this. I consider myself a semi expert on this at this point, but I am badly injured, beaten, brain injured, and they won't stop and let me heal. if I could heal, I could do good, and tell you more about what they did, and what needs to happen to prevent and improve the situation. please try to get a criminal probe into this by someone impartial, and do a full Senate probe too - please I deserve to live!! I did nothing wrong to get targeted like

this.. I was a innocent person, just needed help in life. I wasn't mentally ill, dangerous or a criminal; I needed to go to school and get involved in life again, they completely took over and ruined everything.

Here are my best links about this issue:

Mind Justice is a humans rights group with a lot of information about this technology and this problem. They have books, citations, newspaper articles, original research, interviews with doctors and neurologists, info on the Russian laws banning this technology, etc.: <http://www.mindjustice.org/>

Dennis Kucinich's bill Space Preservation Act, 2001, 2002, 2005 would have banned or prevented the use of this system. But the US government went against the world, and the bill was derided and never came up for a vote when proposed on 3 different occasions. It details the use of ground, sea, and space based information, psychotronic, electromagnetic and other weapons which can be used to torture, simulate psychosis, read and steal thoughts, and more. Officially, the rest of the world was scared in 2000 by the idea of "intellectual property theft" and information terrorism, so many countries riled behind a ban. Russia is the country with the greatest and most public work done in this area, and there are a few others. The US refused to comply with any sort of treaty, apparently because they saw value in maintaining and having access to this technology. The bill is comprehensive: <http://www.fas.org/sgp/congress/2001/hr2977.html>

Mind Games is an article in the Washington Post about victims and targets of abuse like this: I believe a good amount of these people are legit, the government is seriously targeting more and more people with this every day. And the targets are forced to live with it, because no one will do anything to stop it. The deal with the government, is that everyone is already involved; the police and FBI don't act to enforce the rules or law because they're already involved and using this technology everyday themselves. They won't expose a critical part of the system, or any crime they've committed by using it. I am the governments scapegoat for trying to expose this.. at OSH I caught the state/US DOJ/CIA using this on me, on camera with audio recordings in 2008, during the US DOJ investigation. They neutralized me, attempted to murder me in my hospital bed with this weapon. Since I have been followed by undercover agents everywhere, they are using this weapon on me, and everyone's involved. Local police, sheriffs, state police, FBI Agent Roberts is the name of one guy in charge. I have very badly damaged brain and body, and I sit in an electromagnetic field, an unlawful prison, for going against these people. Please help.. <http://www.washingtonpost.com/wp-dyn/content/article/2007/01/10/AR2007011001399.html>

Dr. Carole Smith, using light invasive technology to read brainwaves, invade and control the mind: She's an expert on mind control, and psychiatric malpractice, and has created a whitepaper on the need to revise the diagnostic criteria for psychosis. Psychosis is a diagnosis the government hides behind when they target or torture someone. Basically, all the effects of psychosis can be simulated with a weapon, and the diagnosis currently lacks clarity or insight into what these weapons are or what psychosis really is, which means when abuse or a government weapon is involved, it is too easy for a person to receive a false diagnosis which makes it easy for the government to hide abuse, or neglect or hurt a person: <http://dandelionsalad.wordpress.com/2007/12/13/intrusive-brain-reading-surveillance-technology-hacking-the-mind-by-carole-smith/>

Is the NSA Conducting Electronic Warfare On Americans?

Jonas Holmes May 19, 2006 CHRONICLE ARTICLE

Russ Tice, former NSA intelligence officer and current Whistleblower, was to testify before the Senate Armed Services Committee this week. Apparently the testimony, Mr. Tice wanted to give, makes General Hayden's phone surveillance program look like very small potatoes. Mr. Tice's testimony is expected to reveal further illegal activity overseen by General Michael Hayden which even loyal and patriotic NSA employees view as unlawful. I think the people I talk to next week are going to be shocked when I tell them what I have to tell them. IT'S PRETTY HARD TO BELIEVE, Tice said. I hope that they'll clean up the abuses and have some oversight into these programs, which doesn't exist right now. According to Mr. Tice, what has been disclosed so far is only the tip of the iceberg. What in the world could Russ Tice be talking about! To figure it out let us take a look at Russ Tice's work at the NSA.

According to the Washington Times and numerous other sources, Mr. Tice worked on special access programs related to electronic intelligence gathering while working for the NSA and DIA, where he took part in space systems communications, non-communications signals, electronic warfare, satellite control, telemetry, sensors, and special capability systems. Special Access Programs or SAPs refer to Black Budgets or Black Operations. Black means that they are covert and hidden from everyone except the participants. Feasibly there would be no arena with a greater potential for abuse and misuse than Special Access Programs. Even now Congress and the Justice Department are being denied the ability to investigate these programs because they don't have clearance. To put it in CNN's Jack Cafferty's words a top secret government agency, the NSA, the largest of its kind in the world, is denying oversight or investigation by the American people because investigators lack clearance. To add a layer of irony to the Black Ops cake this travesty is occurring in America, the supposed bastion of Freedom and Democracy, which we are currently trying to export to Iraq.

It just gets scarier. The Black Ops that Mr. Tice was involved in related to electronic intelligence gathering via space systems communications, non-communications signals, electronic warfare, satellite control, telemetry, sensors, and special capability systems. For greater insight as to the impact of these programs readers should review decades old FOIA authenticated programs such as MKULTRA, BLUEBIRD, COINTELPRO and ARTICHOKE. Radar based Telemetry involves the ability to see through walls without thermal imaging. Electronic Warfare is even scarier if we take a look at the science. NSA Signals Intelligence Use of EMF Brain Stimulation. NSA Signals Intelligence uses EMF Brain Stimulation for Remote Neural Monitoring (RNM) and Electronic Brain Link (EBL). EMF Brain Stimulation has been in development since the MKUltra program of the early 1950's, which included neurological research into "radiation" (non-ionizing EMF) and bioelectric research and development. The resulting secret technology is categorized at the National Security Archives as "Radiation Intelligence," defined as "information from unintentionally emanated electromagnetic waves in the environment, not including radioactivity or nuclear detonation." Signals Intelligence implemented and kept this technology secret in the same manner as other electronic warfare programs of the U.S. government. The NSA monitors available information about this technology and withholds scientific research from the public. There are also international intelligence agency agreements to keep this technology secret.

The NSA has proprietary electronic equipment that analyzes electrical activity in humans from a distance. NSA computer-generated brain mapping can continuously monitor all the electrical activity in the brain continuously. The NSA records and decodes individual brain maps (of hundreds of thousands of persons) for national security purposes. EMF Brain Stimulation is also secretly used by the military for Brain-to-computer link. (In military fighter aircraft, for example.) For electronic surveillance purposes electrical activity in the speech center of the brain can be translated into the subject's verbal thoughts. RNM can send encoded signals to the brain's auditory cortex thus allowing audio communication direct to the brain (bypassing the ears). NSA operatives can use this to covertly debilitate subjects by simulating auditory hallucinations characteristic of paranoid schizophrenia. Without any contact with the subject, Remote Neural Monitoring can map out electrical activity from the visual cortex of a subject's brain and show images from the subject's brain on a video monitor. NSA operatives see what the surveillance subject's eyes are seeing. Visual memory can also be seen. RNM can send images direct to the visual cortex, bypassing the eyes and optic nerves. NSA operatives can use this to surreptitiously put images in a surveillance subject's brain while they are in R.E.M. sleep for brain-programming purposes. Individual citizens occasionally targeted for surveillance by independently operating NSA personnel

NSA personnel can control the lives of hundreds of thousands of individuals in the U.S. by using the NSA's domestic intelligence network and cover businesses. The operations independently run by them can sometimes go beyond the bounds of law. Long-term control and SABOTAGE OF TENS OF THOUSANDS OF UNWITTING CITIZENS by NSA operatives is likely to happen. NSA Domint has the ability to covertly assassinate U.S. citizens or run covert psychological control operations to cause subjects to be diagnosed with ill mental health. National Security Agency Signals Intelligence Electronic Brain Link Technology NSA SigInt can remotely detect, identify and monitor a person's bioelectric fields. The NSA's Signals Intelligence has the proprietary ability to remotely and non-invasively monitor information in the human brain by digitally decoding the evoked potentials in the 30-50 hz, .5 milliwatt electro-magnetic emissions from the brain. Neuronal activity in the brain creates a shifting electrical pattern that has a shifting magnetic flux. This magnetic flux puts out a constant 30-50 hz, .5 milliwatt electromagnetic (EMF) wave. Contained in the electromagnetic emission from the brain are spikes and patterns called "evoked potentials." Every thought, reaction, motor command, auditory event, and visual image in the brain has a corresponding "evoked potential" or set of "evoked potentials." The EMF emission from the brain can be decoded into the current thoughts, images and sounds in the subject's brain. NSA SigInt uses EMF-transmitted Brain Stimulation as a communications system to transmit information (as well as nervous system messages) to intelligence agents and also to transmit to the brains of covert operations subjects (on a non-perceptible level). EMF Brain Stimulation works by sending a complexly coded and pulsed electromagnetic signal to trigger evoked potentials (events) in the brain, thereby forming sound and visual images in the brain's neural circuits. EMF Brain Stimulation can also change a person's brain-states and affect motor control. Two-way Electronic Brain-Link is done by remotely monitoring neural audio-visual information while transmitting sound to the auditory cortex (bypassing the ears) and transmitting faint images to the visual cortex (bypassing the optic nerves and eyes, the images appear as floating 2-D screens in the brain). Two-Way Electronic Brain Link has become the ultimate communications system for CIA/NSA personnel. Remote Neural Monitoring (RNM, remotely monitoring bioelectric information in the human brain) has become the ultimate surveillance system. It is used by a limited number of agents in the U.S. Intelligence Community. RNM requires decoding the resonance frequency of each specific brain area. That frequency is then modulated in order to impose information in that specific brain area. The frequency to which the various brain areas respond varies from 3 Hz to 50 Hz. Only NSA Signals Intelligence modulates signals in this frequency band.

An example of EMF Brain Stimulation: Brain Area

Bioelectric Resonance Frequency Information Induced Through Modulation  
 Motor Control Cortex 10 HZ Motor Impulse Co-ordination  
 Auditory Cortex 15 HZ Sound which bypasses the ears  
 Visual Cortex 25 HZ Images in the brain, bypassing the eyes  
 Somatosensory Cortex 09 HZ Phantom Touch Sense  
 Thought Center 20 HZ Imposed Subconscious Thoughts

This modulated information can be put into the brain at varying intensities from subliminal to perceptible. Each person's brain has a unique set of bioelectric resonance/entrainment frequencies. Sending audio information to a person's brain at the frequency of another person's auditory cortex would result in that audio information not being perceived.

Additionally, A 1994 congressional hearing reported that nearly half a million Americans were subjected to some kind of cold war era tests, often without being informed and without their consent. In addition, experimentation law is well grounded in constitutional and international law. It is an under-reported fact that two major reports on human rights and torture in the U.S. recently listed illegal radiation experiments. Many more facts are documented below. Therefore, human research subject protections should be a high priority and are just as significant as current issues of torture and illegal wiretapping. IT IS TIME FOR AMERICA TO WAKE UP. It is time for America to protect its Whistleblowers who are our last line of defense against dictatorship and despotism. It is time for America to take responsibility for oversight of its tax dollars and elect leaders who will assume such responsibility now. Yes, the war on terrorism is important. It is even more important and fearful if the terrorism is from within and unknowingly funded by hard working American citizens. There is no Special Access Program beyond the oversight of political leaders elected by the people and for the people. If these political leaders jeopardize national security then that shall be handled in a court of law. But to tell America, to tell the American people, to tell the political leaders elected by the American people that America does not deserve to know what happening in the NSA's dark, black rooms, with billions of dollars, behind closed doors, when we know that privilege has already been abused; that is the true definition of TERRORISM. That is the true definition of Communism and a Police State, no oversight. So fellow Americans, you may hem and haw in the face of truth but know that one day you will realize that your country has been USURPED from the very principles upon which it was founded.

Godspeed, Russ Tice, the Patriots are with you.

hey, I am curious to know if you can point me in the right direction on getting help with the use and abuse of psychotronics and synthetic telepathy here in the USA. sure you have had people contact you before about it, you yourself might not know it exists, people tend to say people with knowledge of it are crazy. psychotronics usually refers to technology that can read brainwaves, like mind reading tech. its really advanced. they can see what I see, hear, feel, detect nerve impulses, I can sort of control the machine, move sound around my body, it responds to thought, they can also see what I think, imagine, explore memory, see what memory comes up as associated with what I am thinking, or my environment and what I am exposed to. they can also do full thought control, control your emotions, broadcast thought, memory, feeling, images and video, sound and automate most of this, tie it to my responses. sound waves, energy waves, infared, microwaves and radiowaves are used to manipulate me from afar, they can also do things to my body. move tissue around, buzz, tickle, itch, tingle, simulate massage, heat, burn, chill, expand tissue, push, pull, I can hear the sound 24.7, they run dream simulations, talk to me, they repeat it over and over, its computerized, loops and never ending. it changes and is dynamic but it doesn't stop. it can mimic a lot of environmental sound, match energy, pitch, emotion, and blend in, plus sound like other people, its fully produced and rendered in real time, responds to what I do. dreams are nearly video like, produced with story boards just like movies and animation, as they have previously told me. they can encode the emotion or feeling of a thought in messages, like they are saying 'you stop it right now' but I feel the thought and feeling, they make it feel like they are saying they will say you sent it to the wrong place, .. they base the thought on my fears and side worries as I write this. it adapts in real time. they are warming my body, asshole, sexually abusing me, they have forced me to orgasm hundreds of times, they hurt me and pretend I am psychotic. I have been classically gang stalked, I guess that's just how this goes. local government, the police in Springfield OR, the sheiffs, state police, and Oregon state hospital are involved. this is where this all started, in 2007 and 2008 I was being spied on at the hospital, staff were abusive and targeting me with abuse, there was a scandal with staff misconduct, a women named Bonita tucker, who did things inappropriately with me then lied about it, said I was a stalker, in love with her, who knows what else. she then got caught in a romantic relationship with another patient, David Anderson, and brought in drugs and illicit contraband for him, which I witnessed and reported. she did this with others as well, including patient John Eastman. she eventually tried to help David and Gino Puglisi escape OSH, Gino was successful but her boyfriend and future husband got left behind. osh let her resign rather than fire her, she was not arrested, and they tried to protect David and Bonita. I was made a target. they pretended I was psychotic, physically harassed me, let David assault me, staff threatened me and called me names, abused me with medication, made noises around me, whatever. they started to spy on me and try to control me with this technology. staff openly talked about how they had technology to track me and focus on just me inside the building, they could see what I did in the shower, my room, and knew what I was thinking and doing. they used this to abuse and control me. sometime in 2008, staff were bullying me around, hiding my grievances, kicking and banging my door, falsely documenting my behavior as psychotic, they would do the hand gesture to say 'fuck you', ran by my door and banged it, 'we're not afraid of you'. I had an outside doctor say I wasn't psychotic but had ADHD, and that the hospital couldn't medicate me without my consent. staff prescribed large doses of medication anyway, when I refused they gave me a shot, they were deliberately aggressive when they did it. I was ripped off the phone, staff said 'we don't care about your rights, noone will help you' etc. I called the superintendents office, and his receptionist attempted to help me read the policy on forced medication, but a supervising RN named Valerie interrupted her, and she returned to the phone, 'sorry, we were told not to help you' and

hung up. it was deliberate and planned hospital wide abuse. staff whistled and made noises at me, eventually they used this machine to make me hear a loud whistle everywhere I went on the unit, no-one else could hear. in august 2008 they said, 'no-one has ever made it this far' and suddenly I felt my body swell, I started to blow up, sound waves was forcing my body to expand, and I went into shock. they said 'hold still or we will pop your ear'. my eyes and throat began to pulsate, they were making me smile and opening my eye lids, they tried to say it was an unstructured settlement, they played games about getting my own group home, having a social worker, tried to get me to call disability rights Oregon for help, they said I could be special transferred out of osh, a private transfer if it were an emergency, I was going to go with someone named deann major, dro paimi advocate. but she knew it was there and was letting me be abused, she participated, she knew it was happening all along. i had a 170 pulse, I lost memory and had trouble talking or acting after this, they kept screaming at me and abusing me deliberately, they would rig it to repeat everything I said or thought, I stopped sweating, and bowels got dry, muscles clamped down and I lost movement, when I tried to poop, I couldn't go, they would say 'he just likes to smell his own farts'. when I was around women, they tingled my balls and said, 'why do your balls swell'. I didn't know for sure at first, I could hardly feel anything, sound was very loud and was crazy what they did. they started to use the soundwaves on my muscles and body, drilling my inside, my insides buzzed and whipped around, pulsated, eventually my muscles got tighter and more rigid, dryer, and I could no longer move or flex .. I could hardly move or think, no one would help, and I received no medical care. they'd say your either delerius or suicidal, hid abused pretended I assaulted myself and lied about everything in abuse reports. I was being set up to look psychotic they said. I was forcefully medicated and abused with medication after this, and it hurt me even more. they kept on using this on me for the past four years, I got worse and worse. more stiff. in the last year they started to become very abusive, the local police knew what I did in my apartment, conversations I had, conversations my friends had, many people were involved, including my doctors, counselors, sacred heart hospital, the county and I was deliberately abused as I tried to get help, everyone participated and did what these people wanted. in 2011 I tried to get help, and the police assaulted me, beat me up, lied about it, falsified their police report, they knew this was happeneing and lied, I got a broken tooth and nose. in jail they started to sexually assault me, sound moves and heats, tingles my genitals, they make it feel like a female, and have all sorts of impressions and images. Jail staff at lane county jail participated, whistled, denied me medical care and made faces, cooperated with the project and spying and allowed me to be abused in secret. its very long range, at least a few miles, fits in a car or vehicle. people trail me in cars, they used to have a theme song, they followed me everywhere, people would stop and make faces, zip their lips closed, ... in jail they started to rape me, force orgasms, it was jacking my body up. hurting me badly, I was getting stiffer and stiffer, my entire body being damaged. I lost the ability to orgasm in 2010 because of medication and what they did to me with this, antidepressants screwed it up and I became sensitive, now my muscles clamp, dry out, I go into shock, I can't move and hurt all over, i lose memory and feel pressure in my head. they do it to incapacitate me. they are saying the word 'safer' now... 'weirder now'... they say you can tell I don't have the ability to get help, please I just want to say, why would you want to exploit and hurt me like this, I am more important than this technology or these people... I didn't do anything to them or to deserve this, they set me up, they have too much control over me, this county and state is not safe but I can't get free, everyone is involved, won't help, I am restricted on where I can go by my court case. they keep raping me, my brain and body swells, face is swollen, losing vision and hearing, lots of brusing and swelling, muscles pinch and can't move so well, I need functional neurological rehab and protection from this, they will keep hurting me till its stopped.

I believe it works using a device similar to a light or sound projector, but with greater precision. it can project and focus beams of radio, microwave, infared, and sound waves, capable of varying patterns, shapes, frequencies at different and multiple points over a 3D space. it can paint a picture and move sound and energy over a persons body like a video projectors picture moves a screen. it can target muscles, slin, my insides, move and manipilate tissue precisely. energy may focus from multiple points to a single location where it builds or interacts with other energy and beams, so it doesn't effect the spots before or after, and appears inside your body or around an object or person.

My face is numb, I feel intense pain in my head, I feel weak and burning and stinging everywhere, dizziness and sickness occurs, intense dehydration and inability to hear or recover, I am hot, in shock, I have symptoms of brain swelling and brain pressure, which can be fatal and causes damage to the brain. Can't get help..

please let there be good people on the other side of this, I know people in the CIA have this and use it, ... it can link people together and send communication between multiple targets, allow people in the field to know exactly what I am thinking and doing, you can find out anything another person knows and do things in secret to them, hurt or injure them if it was desired.

in 2008 they said 'like you spy for the newspaper, deann major spies for the CIA' . this doesn't really prove who is behind it. CIA could refer to anyone who thinks of themselves as an intelligence gathering entity, or it could mean that she tried to contact the CIA, or worked with the CIA who was operating this - I tried to contact reporters about the situation at osh, and she was portrayed as doing something similar with the CIA. at the time the USDOJ was investigating osh, perhaps resources related to this were being used as a result of their investigation. the usdoj is often associated with the use of this technology on people. the state police might have enough resources to do this, and I know they are involved, but I wouldn't be able to tell from this. in jail they called themselves the army and air force. the air force of course invented voice 2 skull technology in the 1990s. I bet this is being used across America to spy on people in secret or as part of a national intelligence program. as far as I can tell, its ubiquitous.

I can't talk so well right now, head feels tight, burns, I feel really stiff... pressure in my body makes it hard to think or talk, or act on it, there's so much more I remember, this is the best I can do. they are buzzing my anus and balls and bottom right now... I wish it would stop. please inform your top officials. I am being set up and can't defend myself in the legal system without someone helping me, I can't get help without people acknowledging what happened, or acknowledging me being repeatedly injured.

I hope you believe human life is more important than energy weapons and human exploitation. this is automated mindless torture, rape, and mutilation of innocent American citizens. this shouldn't be allowed. we should finally write laws to address these issues and inform the public of this technology and its' existence.

The FBI has received many emails, letters, and phone calls about this, the portland office read over and every agent seemed to know me and what I said and was going through when I called. I believe they participated. When I was arrested in 2011, and assaulted by officer Grice and another guy, grice made mention of FBI agent Roberts getting upset with him for doing it when I was getting treatment at the hospital. I believe the communication between Roberts and Grice occurred over synthetic telepathy, Grice was being told what I thought and was doing, and agent Roberts was someone watching me or involved on the other side.
