Respondents.

Motion for appointment of counsel.

My name is Todd Giffen, and I am an indigent petitioner illegally confined and deprived of liberty and justice by the United States government, US military, and other entities listed as Respondents and Defendants on this Petition. I request the court to sign the order to appoint counsel immediately so I can stop the government from murdering, torturing, and inflicting injuries onto me while in custody to help restore my liberty and bring me and others justice. Each day I experience torture and new injuries develop, and they can kill me at any time. I am being turned into a vegetable as the government lobotomizes me with radiation.

I have experienced murder attempts and am currently crippled due to severe injuries from the United States military.

The court previously denied the motion to appoint counsel, but the circumstances warrant it. I am sitting now at my computer, per a United States employee whistleblower, having my body impinged with radiation and signals intelligence. My muscles are getting tighter and tighter, and they are permanently damaging my brain and muscle tissue.

Under 18 U.S. Code § 3006A (a)(1)(I) it says “(1) Representation shall be provided for any financially eligible person who— (I) faces loss of liberty in a case, and Federal law requires the appointment of counsel;”

Todd Giffen

Furthermore (a)(2)(B) says “(2) Whenever the United States magistrate judge or the court determines that the interests of justice so require, representation may be provided for any financially eligible person who—(B) is seeking relief under section [2241](#), [2254](#), or [2255](#) of title [28](#).”

In the order denying appointment of counsel the judge erroneously points out that my petition is filed under Section 2254, when in fact I am filing under section 2241 as I am in the custody of the Executive Branch and US military not any State (although the States have assisted the federal government in abusing me and others and is fully complicit in helping torture and deprive me of liberty and justice).

I am being murdered and tortured by the United States government and deprived of liberty and justice and the courts refusal to agree that I was previously being deprived of liberty and that a interest in justice existed in their denial of the first motion for appointment of counsel is in fact the court denying me liberty and justice. Thus I face a loss of liberty and justice in this case, and there is an interest in justice here, and qualify for appointment of counsel. It is also in the interest of liberty and justice that I receive help to prevent further torture and murder attempts by the government and receive help as quickly as possible. Furthermore, the judge currently assigned to the case has ties to the US Department of Justice, and they are parties in this case who have previously attempted to murder me and covered up and committed crime against me, so it is imperative that my rights are observed with aid of counsel to prevent the judge and court from denying me liberty and justice and thereby enabling the court to allow the government to murder me by omission myself or murder me with covert complicity or murder me with deliberate indifference towards the case and Petitioner or murder me through malpractice of the judge of this court. A conflict of interest certainly exists and the judge should recuse himself. By denying me counsel the judge is also permitting the government to continue to target and torture me every second of the day. I am also afraid without counsel the court may improperly dismiss my Writ of Habeas Corpus or improperly deny me rights or relief, thus counsel should be appointed immediately to prevent the court from denying or interfering with my right to liberty and justice also enabling the attorney to provide much needed oversight of the court and legal procedures in play in expectance of foul play.

I submitted two expert witness evaluations confirming that I am being injured with a military weapon as I say and controlled by as quoted of Dr. Robert Duncan DOD/CIA/US DOJ/NASA employee, “You are up against a ruthless computer program and people.”. See exhibits 3 and 4 and Dr. Robert Duncan exhibits on the Writ of Habeas Corpus exhibit list. Furthermore multiple government employees or past employees have included statements verifying this as well (see Dr. Robert Duncan exhibits 13, 14, 15, or USIS employee who’s audio recording is included on DVD1 which is exhibit 1). On DVD1 which is exhibit 1 Dr. Robert Duncan also describes in multiple video and audio recordings methods for how I am being targeted and tortured and can be killed using directed energy at any time.

Further information to support this motion for appointment of counsel should be reviewed completely and is provided within the Writ of Habeas Corpus itself and the exhibits provided which were filed August 13<sup>th</sup>, 2014 I this very case.
